**God created.  
The Bible says so.  
Science confirms it.**

# Top Evidences for God-Creation

1. **The Bible's Witness** (were you there? No, only God was!)
2. **Information** (DNA blueprint for life, information only comes from a mind)
3. **Formation of First Life** (spontaneous generation is impossible)
4. **Design and Beauty of Living Things** (explain metamorphosis!)
5. **Second Law of Thermodynamics** (things naturally deteriorate)
6. **Irreducible Complexity** (all parts of a complex system are needed)
7. **Existence of the Universe** (created itself from nothing? Really??)
8. **Fine-tuning of Physics** (inter-related forces are finely balanced)
9. **Fine-tuning of Earth for Life** (right distance from the Sun, water)
10. **Abrupt Appearance in the Fossil Record** (oldest fully formed)
11. **Human Consciousness** (the mind is more than the brain)
12. **Human Reasoning and Logic** (just chemical reactions in the brain?)
13. **Sexual Reproduction** (matching male and female independently?)
14. **Morality** (our sense of right and wrong)
15. **Miracles** (violations of natural law by reliable witnesses)

# Biblical History Timeline

# Interpretation of Scientific Data

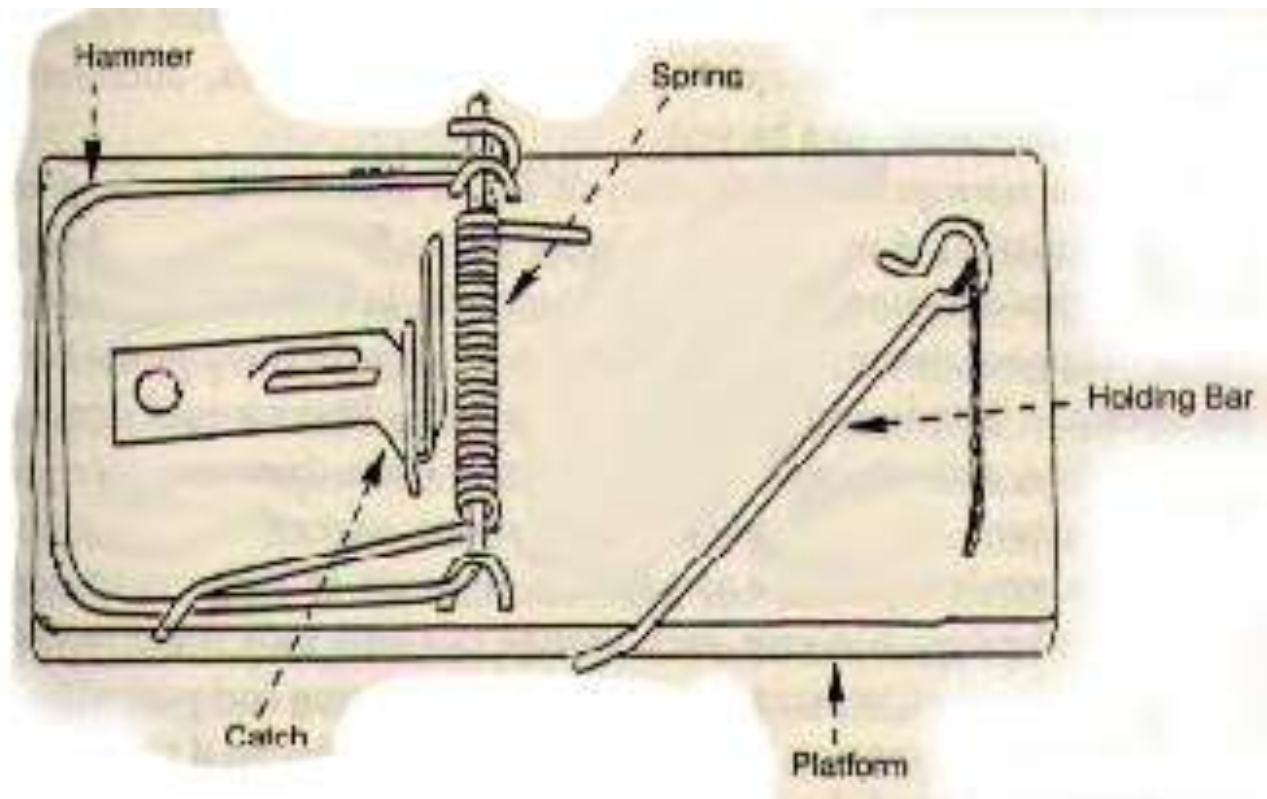

**Interpretation is influenced by assumptions and biases!**

# Irreducible Complexity: Take away one part and it doesn't work

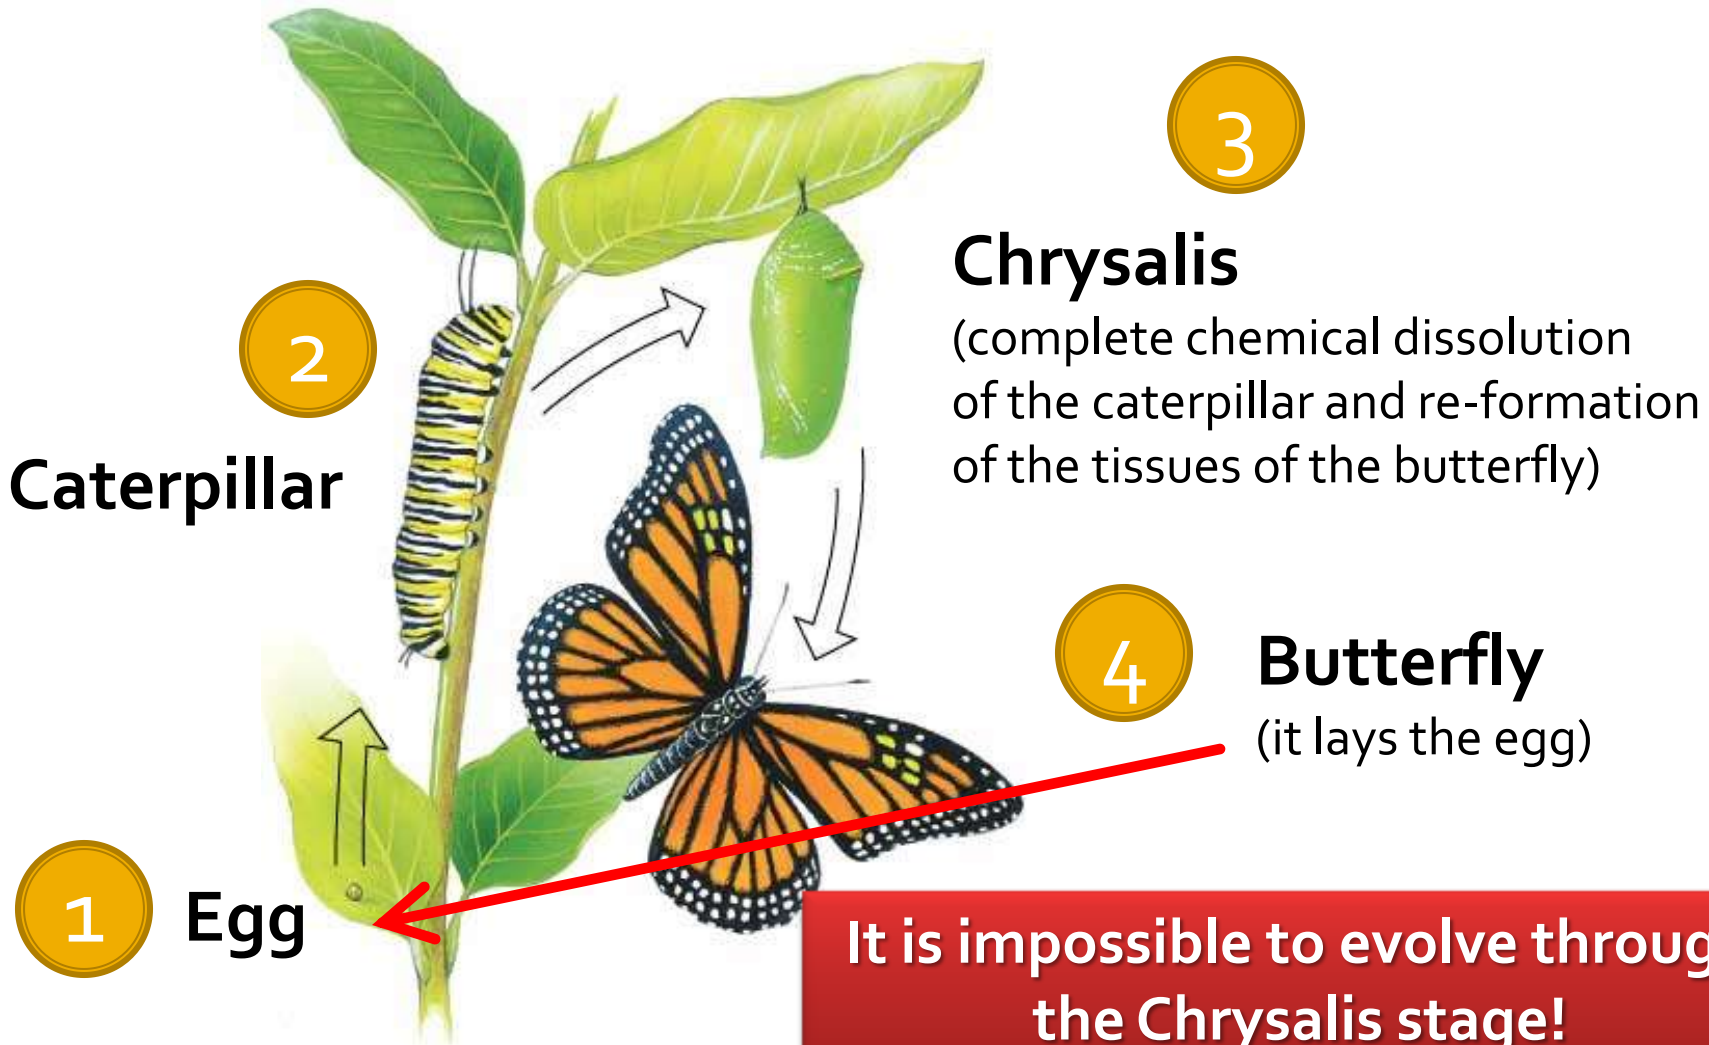

A mousetrap has:

- Platform / Base
- Spring
- Hammer
- Catch
- Holding Bar

Take one part away  
and it will no longer function as a mousetrap!

# Monarch Butterfly Metamorphosis

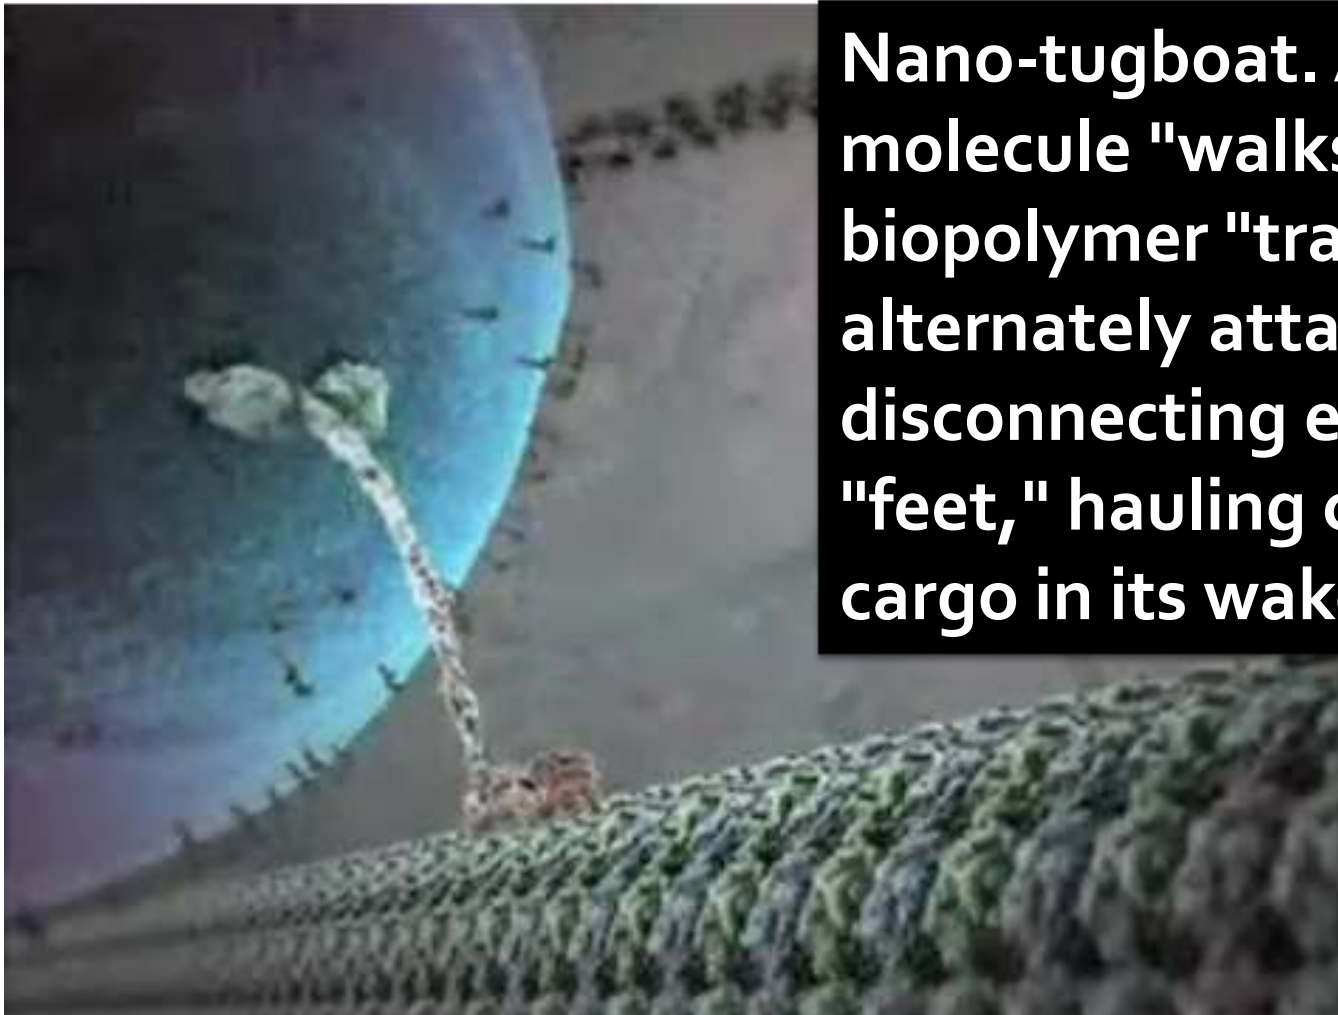

# Molecular machines

From "No Excuses!"

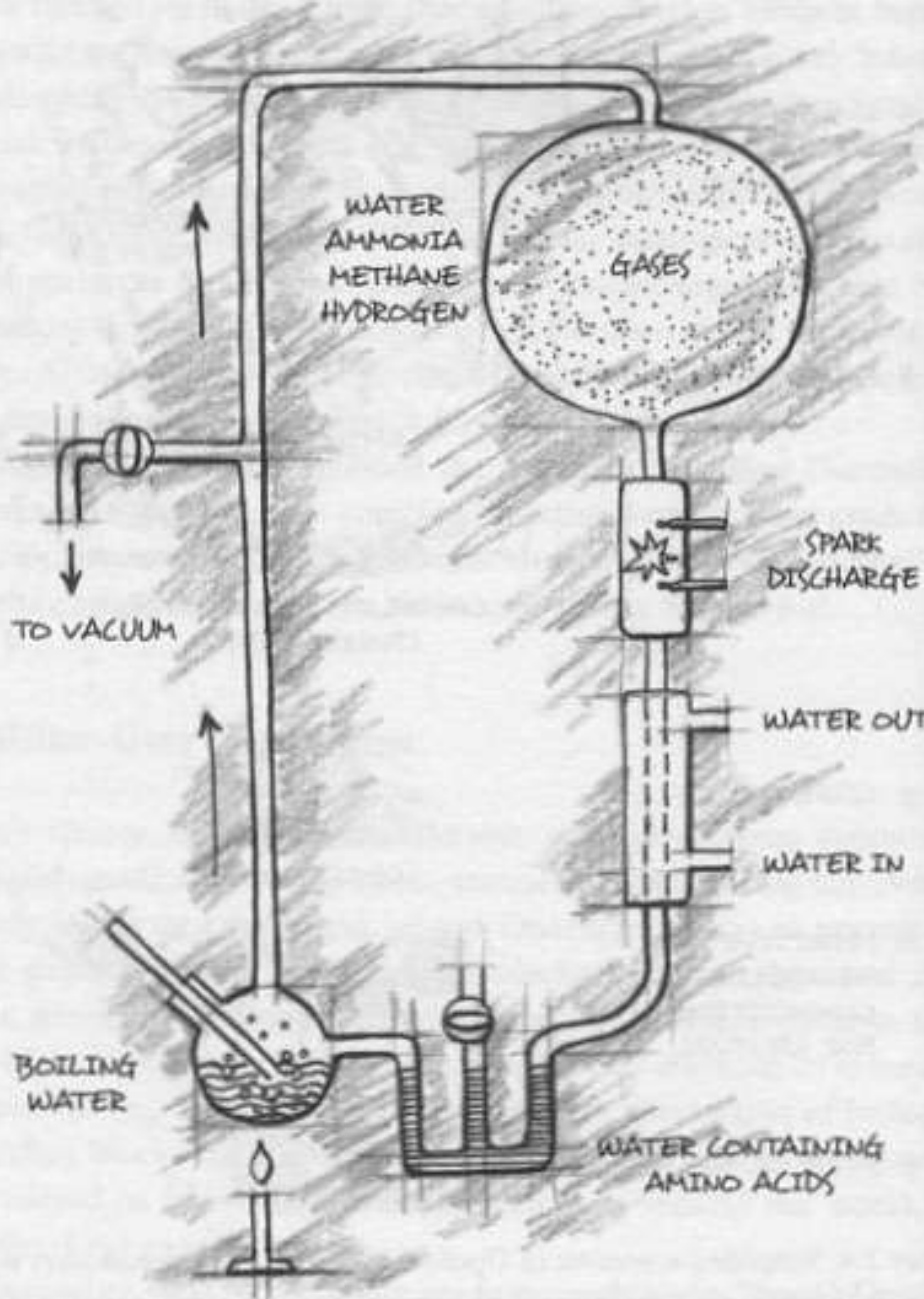

## *The kinesin motor protein*

**Nano-tugboat. A kinesin molecule "walks" along a biopolymer "track" by alternately attaching and disconnecting each of two "feet," hauling cellular cargo in its wake**

From "Signature in the Cell"

## Miller-Urey Experiment

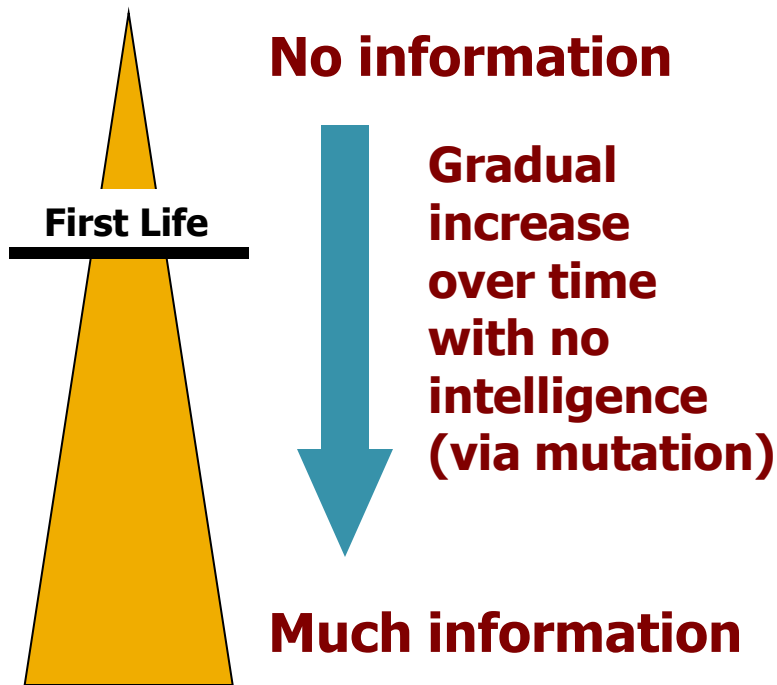

Has many problems, including:

1. Conditions that create amino acids rapidly destroy proteins
2. Had to start with pure compounds not normally found in nature
3. Had to carefully control how energy was added to the system
4. Had strategic trap to remove products before they were destroyed
5. Produced both left and right-handed forms

**Simulation experiments have not produced life!**

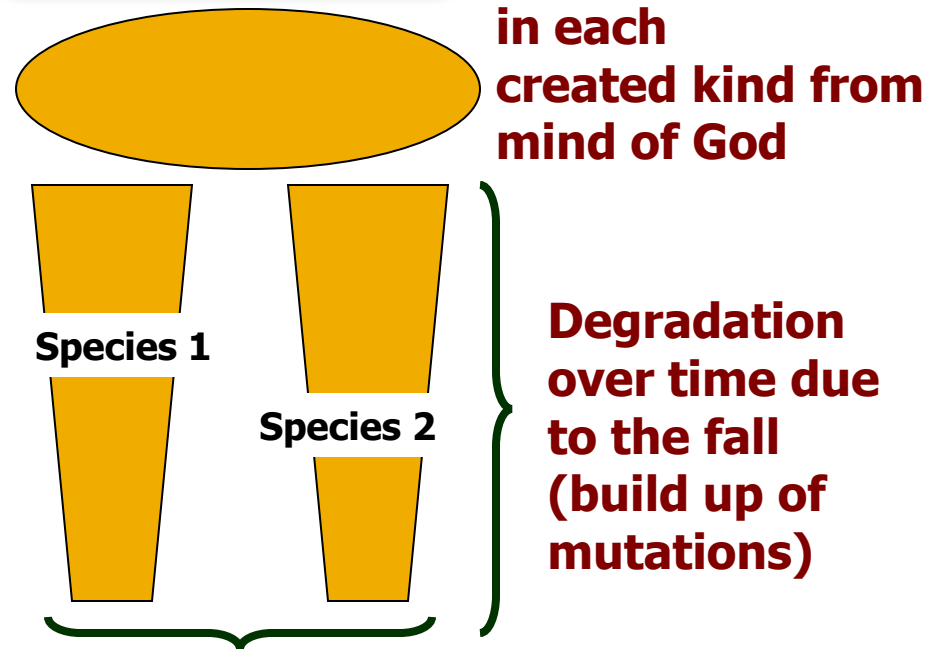

# Views of Information

## Evolutionary View

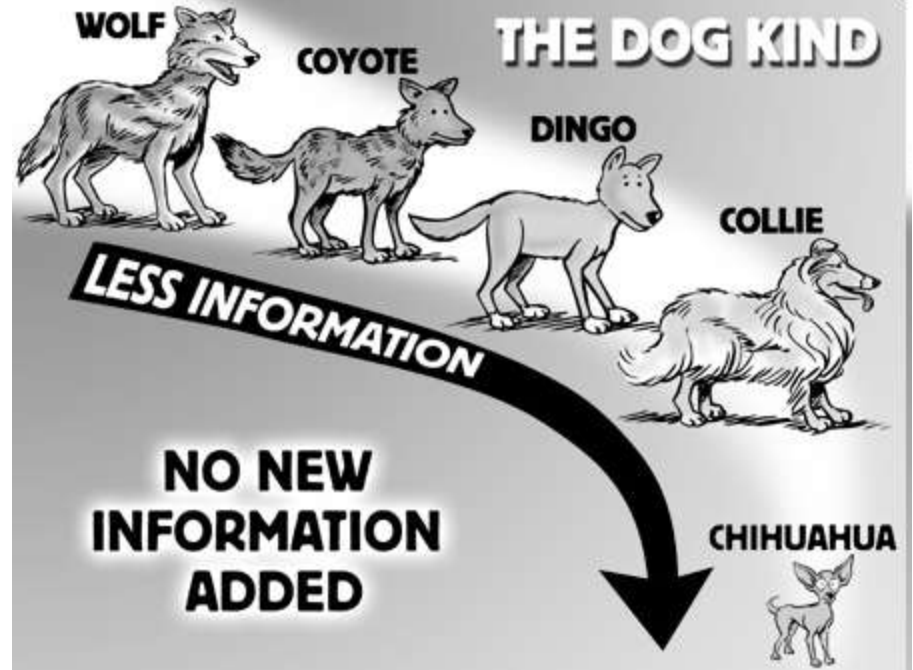

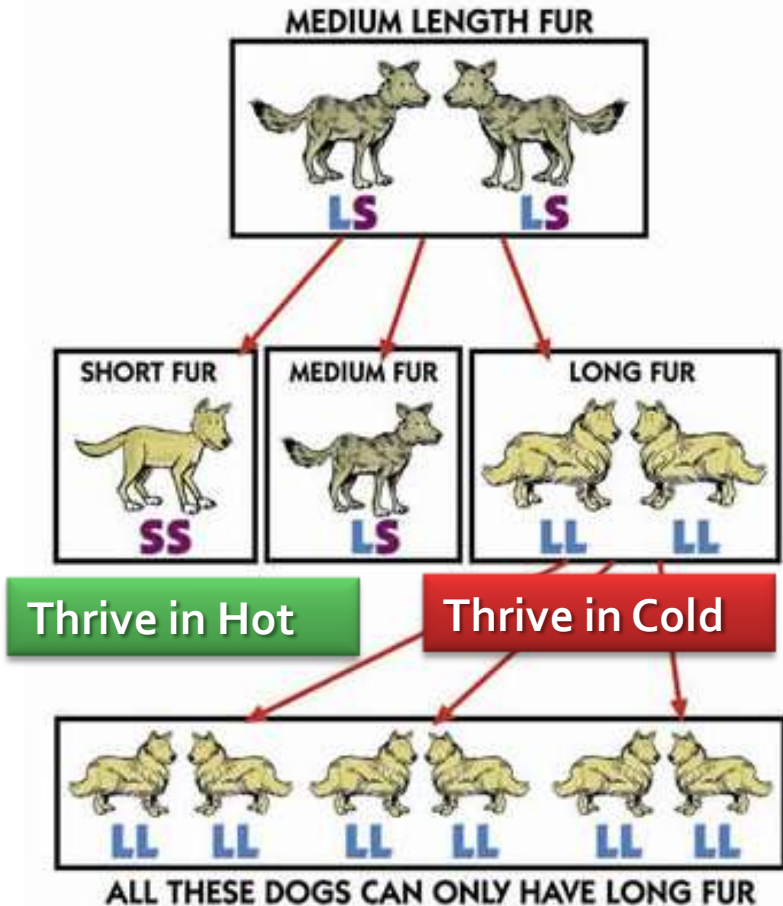

Note: mutation / natural selection only operates after the first replicating life form exists

## Creation View

**Kind diversifies into species due to environmental differences expressing different subsets of existing information**

# Natural Selection is NOT Evolution!

Natural selection selects from already existing information and causes a loss of information

# Views of the Geologic Column

**Evolution**

Evolution of animals of increasing higher orders

Pre-flood, flood boundary

GEOLOGIC TIME SCALE		
PERIOD	EPOCH	SUCCESION OF LIFE
QUATERNARY 0-1 Million Years Rise of Man	Recent Pleistocene	
TERTIARY 62 Million Years Rise of Mammals	Pliocene Miocene Oligocene Eocene	
CRETACEOUS 72 Million Years Modern seed bearing plants, Dinosaurs		
JURASSIC 46 Million Years First birds		
TRIASSIC 49 Million Years Cycads, first dinosaurs		
PERMIAN 50 Million Years First reptiles		
<i>Carboniferous</i> PENNSYLVANIAN 30 Million Years First insects		
MISSISSIPPIAN 35 Million Years Many crinoids		
DEVONIAN 60 Million Years First seed plants, cartilage fish		
SILURIAN 20 Million Years Earliest land animals		
ORDOVICIAN 75 Million Years Early bony fish		
CAMBRIAN 100 Million Years Invertebrate animals,		
PRECAMBRIAN Very few fossils present (bacteria-algae-pollen?)		

**Flood**

More mobile, smarter animals

Habitat zones

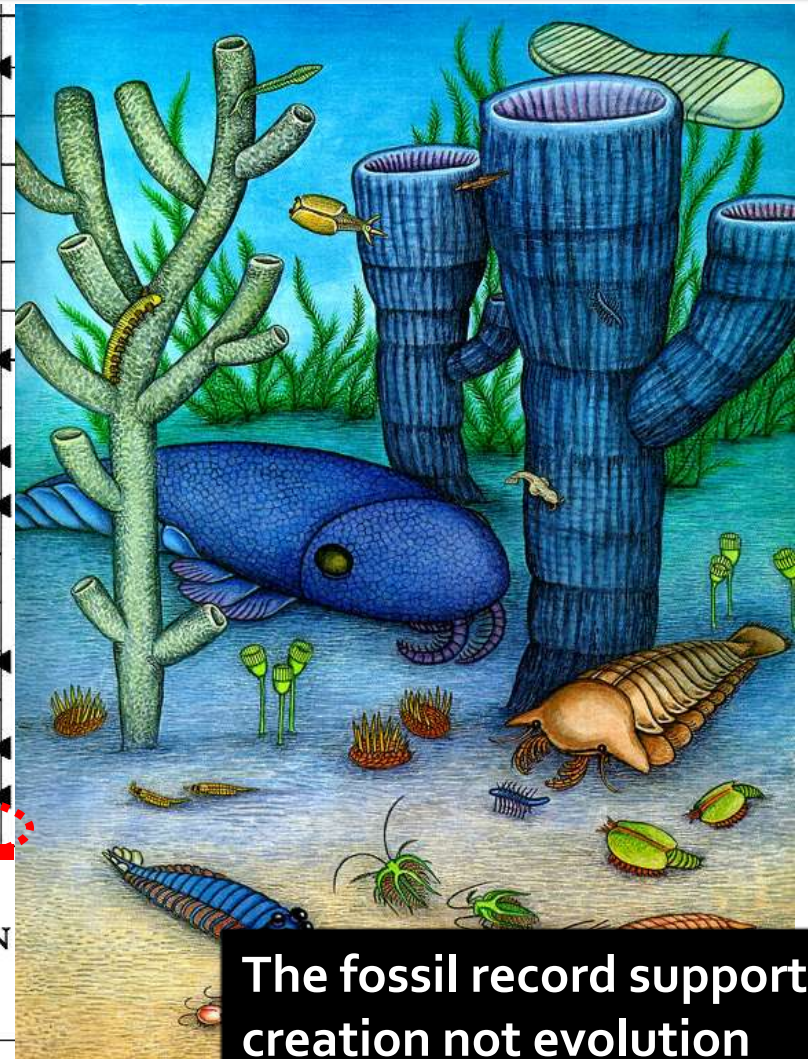

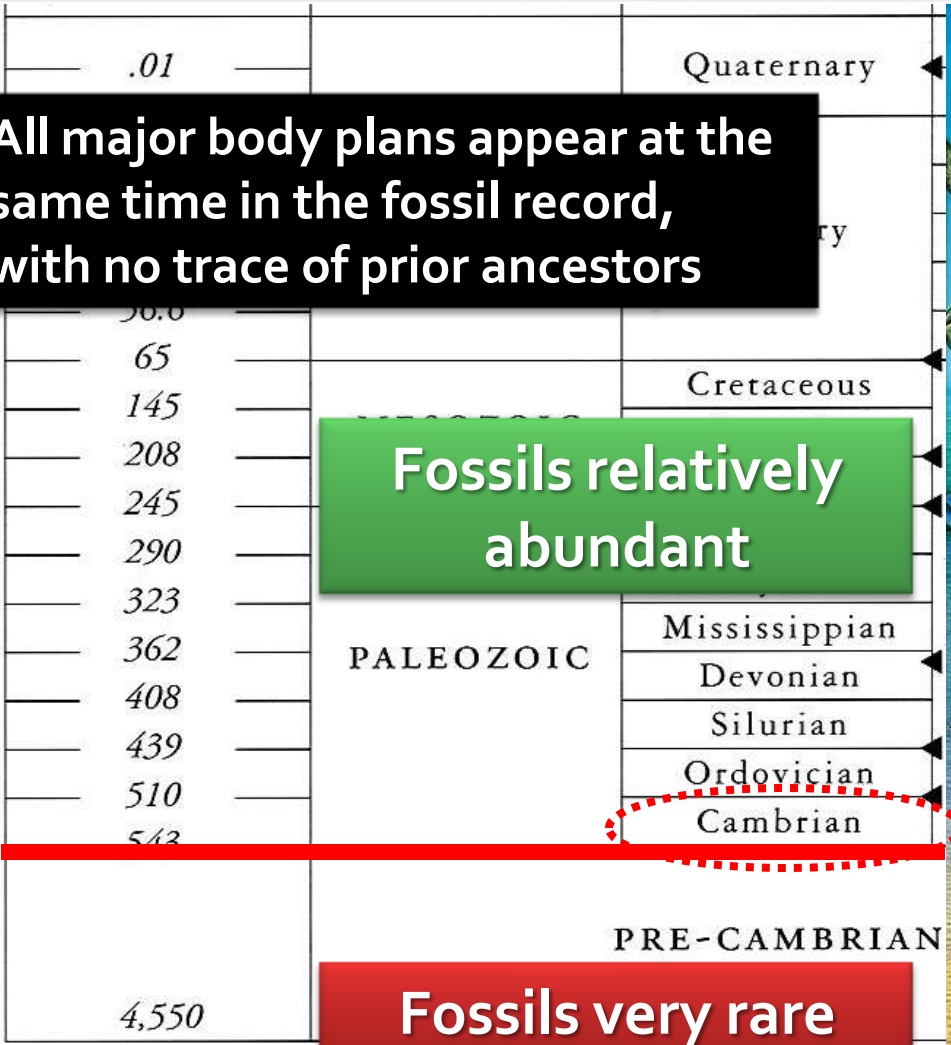

- Various Land
- Near-ocean
- Ocean

Simpler shaped

The flood explains the geologic column

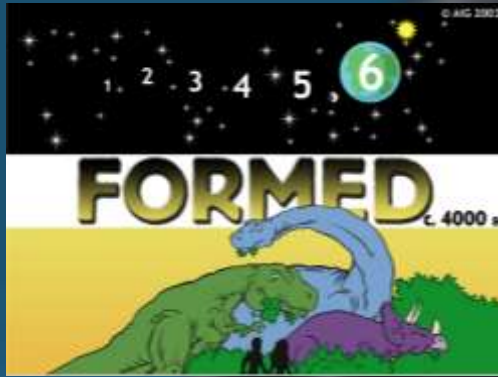

# The Cambrian Explosion

All major body plans appear at the same time in the fossil record, with no trace of prior ancestors

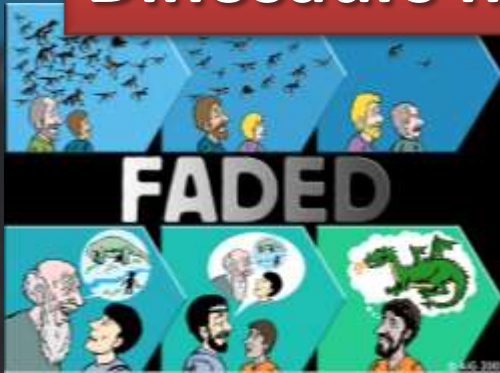

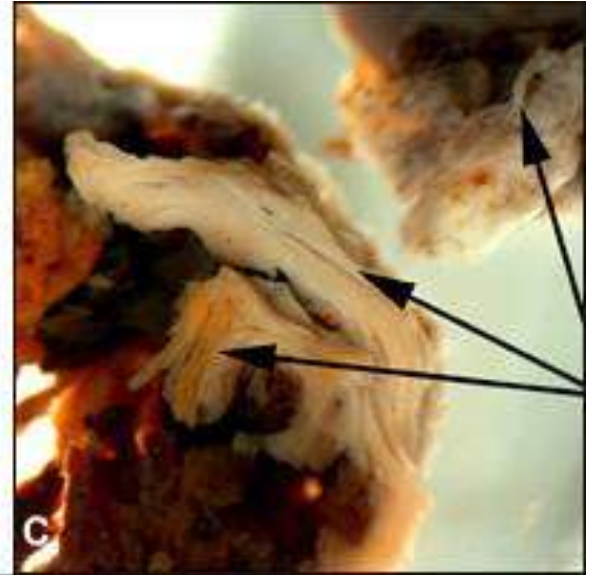

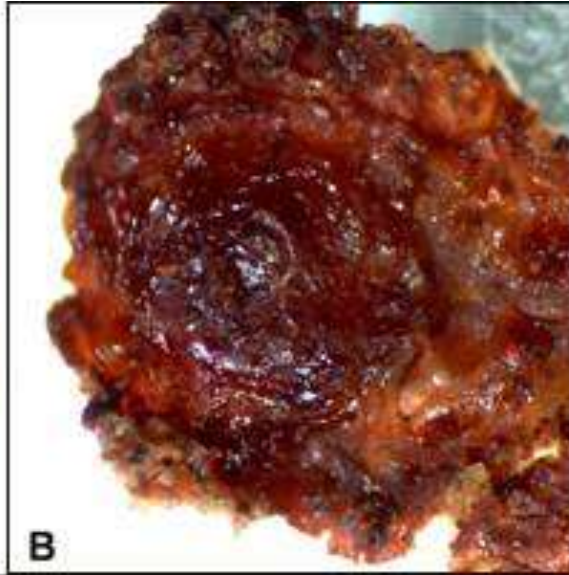

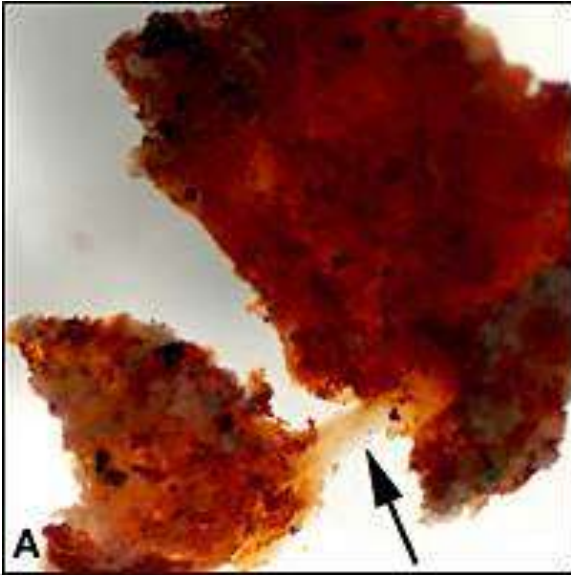

The fossil record supports creation not evolution

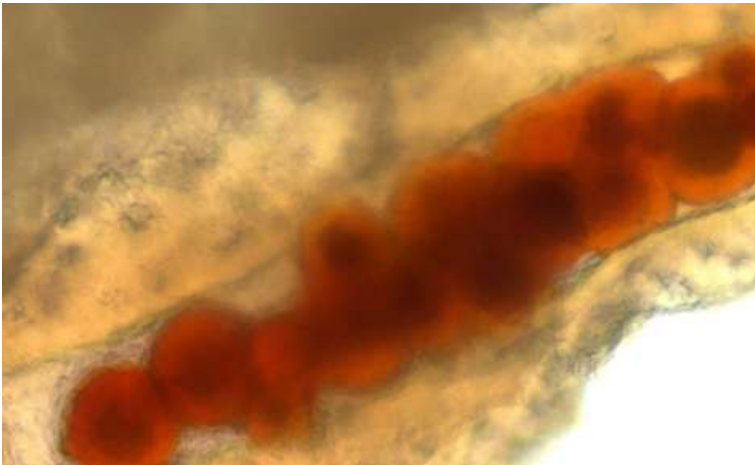

**Dinosaurs fit well into biblical history!**

**Dinosaur bone supposedly 65 million years old still has “fresh appearance” and elastic tissue!**

From the work of Dr. Mary Schweitzer

**Red Blood Cells from  
T. rex specimen**
