Connecting the Bible and Science

Welcome to the Fall 2025 through Spring 2026 season of NJBibleScience meetings!

Our meetings start at 7pm

All meetings are on third **Thursday's** of the month. Held at Calvary Chapel Old Bridge at 123 White Oak Lane, off route 516 just west of route 9. Meetings are in Chapel Rooms A & B upstairs.

Thursday September 18, 2025

Scanga Lecture: "The Genesis Flood"

The Genesis Flood was an utterly unique Planetary Cataclysm. Its aftermath is evident all over the earth and our planet is still affected by it to this very day. This lecture will answer many of the common questions people have about the flood.

Thursday October 16

Scanga Video and Lecture: "Megasequences of the Great Flood"

This video and lecture discussion shows how the sediment layers of the earth reveal and document the reality of the world-wide flood.

Thursday November 20

Lisle Video: "His Star"

This Jason Lisle video explores what the Bible says about the mysterious star that guided the magi to the young Christ in Bethlehem.

Thursday January 15, 2026

Browning Lecture: "What is Heaven Like?"

Except at funerals, it seems we don't often think about Heaven, and it is seldom delved into from the pulpit. What does the Bible teach about the future home of the saved? It is anything but "boring!"

Thursday February 19

The Grand Experiment Video: "The Quest for an Answer"

This video by Dr. Carl Werner documents many misleading museum displays, giving the public the impression that science supports evolution, not creation, as our real history.

Thursday March 19

The Grand Experiment Video: "Living Fossils"

This video by Dr. Carl Werner shows how animals and plants do not show the type of change over time expected by evolution.

Thursday April 16

Dr. Lenner Lecture: "The Origin of Life"

Dr. Gerald Lenner reviews some of the many insurmountable scientific problems associated with a naturalistic origin of life.

Thursday May 21

Smith Lecture: "How Archeology Confirms Biblical History"

Nathan Smith is speaking on how the Bible is a book of history and is well confirmed by archeology, starting with the oldest post-flood events.
